

2027 Cyber Threat Landscape: Is Your Hotel Ready to Detect, Protect & Respond?

Treehouse Hotel,
Manchester
(full address to follow)

Date:
to be confirmed

Half-day session
Start: [time]
End: [time]

Target audience:
Hotel GMs, Owners,
Operations & IT leads

An invitation-only Cyber Prevention event. With Manchester hosting the G20 in 2027, the NW Cyber Resilience Team will share funded services and the steps to protect your hotel.

SESSION AGENDA

1

Understanding the threat landscape

The current cyber threat landscape, and why hotels — especially around the G20 — are a prime target.

KEYNOTE

2

Cyber Breakout Room

Hosted by the NW Cyber Resilience Centre: hands-on exercises to test and sharpen your response.

WORKSHOP

3

Measures You Can Implement

Kaseya walks through the tools your hotel can deploy today to protect guests, data and payments.

TECHNOLOGY

4

How Manchester Hotels Are Doing It

Live Q&A with hospitality IT leads who have deployed real controls (e.g. EDR & SOC) — and the impact.
