AI for C-Level & Board

Walk in to a briefing that's already written, dashboards that are already current and board packs that draft themselves — so leaders spend the day deciding, not digging.

A TYPICAL DAY

- ✓ **An AI morning briefing** — overnight emails triaged, today's KPIs, cash position and any news that affects the business, in one short read.
- ✓ **Live dashboards** across sales, cash, operations and risk — no waiting for month-end.
- ✓ **Meeting prep in minutes** — AI reads the pack, summarises it and suggests the questions to ask.
- ✓ **Decision support** — ask "what happens to cash if we hire three people?" and get a modelled answer.
- ✓ **Draft and delegate** — replies, updates and instructions written for you to send.

EVERY MONTH

- ✓ Auto-generate the board pack — data pulled and narrative drafted
- ✓ Management-accounts commentary written from the numbers
- ✓ Risk register reviewed with AI horizon-scanning
- ✓ Investor and stakeholder updates drafted

EVERY YEAR

- ✓ Strategic and scenario planning with modelled outcomes
- ✓ Annual report and chair's statement drafted
- ✓ Budget and three-year financial models built
