Foresight

AI for Health & Safety

Incidents logged in seconds, risk assessments half-written for you and compliance that chases itself — so your competent person spends time preventing harm, not shuffling paper.

A TYPICAL DAY

- **Log and triage incidents and near-misses** in seconds, from any device.
- **Draft risk assessments and method statements** for a competent person to review and sign.
- **Chase outstanding safety actions and checks** automatically.
- **Generate toolbox talks and safety comms** tailored to the task.

EVERY MONTH

- Analyse incident trends and report
- Schedule and track audits and inspections
- Monitor training compliance

EVERY YEAR

- Review H&S policies and arrangements
- Prepare for audits and insurer reviews
- Support RIDDOR and statutory reporting

STOP OUTSOURCING — DO IT IN-HOUSE

USUALLY OUTSOURCED	NOW IN-HOUSE WITH AI
H&S consultants	**AI risk-assessment drafting and compliance tracking, overseen by your competent person**
Safety-training providers	**AI-generated, role-specific training**

How: it starts with our AI Readiness Audit — a "day in the life" of your team to find the handful of tasks AI saves the most time on — then Microsoft Copilot and custom AI agents, set up securely with governance built in. **Note:** AI drafts, logs and reminds — risk judgements and sign-off stay with a competent person, as the law requires.
